SKILLS

Technical Skills: Core Java, C & C++, Node.js, Express.js, MongoDB, HTML5, CSS3, Git and Github, React, JavaScript, Data Structure & Algorithms

Soft Skills: Adaptability, Time Management, Teamwork, Problem Solving

PROJECTS

Calori-Scan | *React, Node.js, Express.js, MongoDB*

- 🚀 Deployed Link : https://calori-scan-frontend.vercel.app/
- ⬡ Github Repo : https://github.com/TheApostle-07/CaloriScan
- Developed a full-stack calorie-tracking application with user authentication and real-time data updates.
- Designed and implemented an interactive user interface using React, HTML, and CSS.
- Optimized app performance by 30% through React memoization and efficient API requests.
- Built and integrated backend services with Node.js to handle user data securely.

E-commerce Clone (ModeSens) | *JavaScript, Git, HTML5, CSS3, Responsive Web Design*

- 🚀 Deployed Link : https://modesensclone.netlify.app/
- ⬡ Github Repo : https://github.com/VanshAggarwal4664/B41_WEB_009_Web-Architects
- Collaborated with a 4-member team using Git for efficient version control and project coordination.
- Communicated effectively to align project objectives and resolve development challenges.
- Reduced page load time by 20% through implementing image optimization and lazy loading techniques.
- Adapted to team roles and shifting priorities in a dynamic, fast-paced project environment.
- Maintained attention to detail and professionalism while supporting team goals and deadlines.
